The screenshot displays the online banking interface for 'Profi cash'. The navigation bar includes 'Einstellungen' (Settings), which is highlighted with a red arrow labeled '1'. Below it, the 'HBCI-Verwaltung' (HBCI Management) option is selected, indicated by a red arrow labeled '2'. The 'HBCI-Verwaltung' window shows the 'Sicherheitsverfahren' (Security Procedures) tab, with a red arrow labeled '3' pointing to it. Within this tab, the 'TAN' section is active, and a red arrow labeled '4' points to the 'TAN-Verfahren' (TAN Procedures) sub-tab. A red arrow labeled '5' points to the 'TAN-Verfahren' sub-tab. A red arrow labeled '6' points to the 'Angebotene TAN-Verfahren' (Offered TAN Procedures) section, where 'SecureGo' is selected. Finally, a red arrow labeled '7' points to the 'Speichern' (Save) button at the bottom of the 'TAN Verfahren' dialog box.
